

Beginner Rider Quick Guide

Whether you're preparing for your first ride or building better riding habits, this guide provides a quick reference to help you ride safely and confidently. Review these reminders before every ride and continue learning as your skills grow.

Pre-Ride Checklist

- ✓ Wear your helmet and protective gear.
- ✓ Check tire pressure and tire condition.
- ✓ Test your brakes, lights, and turn signals.
- ✓ Inspect the chain and controls.
- ✓ Confirm mirrors are adjusted before riding.

New Rider Safety Guide

Ride within your skill level and avoid pushing beyond your experience. Stay visible to other drivers, leave plenty of following distance, and remain focused on your surroundings. Safe riding begins with preparation and smart decision-making.

Motorcycle Basics Cheat Sheet

Maintenance Item	Interval	Why It Matters
Check Tire Pressure	Before Every Ride	Improves traction and handling
Clean and Lubricate Chain	Every 500 Miles	Reduces wear and extends chain life
Change Engine Oil	Every 4,000 Miles	Keeps the engine running smoothly
Inspect Brake Pads	Monthly	Helps ensure safe stopping power
Replace Air Filter	Every 12,000 Miles	Maintains engine performance
